

PREPAID LIGHT PLAY GOLF MEMBERSHIP

Eligibility: Residents of MLGCC including Certificate Holders, Rental Residents and Special Guests.

Description: A resident may become a Light Play member of MLGCC by prepaying \$550 in fees plus applicable taxes (applicable only to green fees). This membership will survive during the then current golf season until the balance is less than the funds required to pay for a single round green fee. When available funds are insufficient to support ongoing membership the Light Play member may top up their prepaid account to maintain membership privileges. If not topped up the membership and associated privileges will become inactive

Privileges: A Light Play member will be issued a Chelsea membership number and will have the right to book tee times in the Chelsea system any time after a Tee Sheet is published. Light Play Members can be included in a Chelsea Request being submitted by an A or B member but will not be able to initiate a Chelsea Request. The funds in the prepaid account are usable only by the named Light Play Member. Funds and or privileges CANNOT be transferred.

Terms of Membership: A Light Play Membership can be used during the normally defined MLGCC golf season (Nov. 1 through Oct. 31). As of Oct. 31 in any given year the balance in the Light Play member's account will become inactive until renewed or upgraded for the following golf season.

Fees: Light Play members will have their prepaid balance debited for the appropriate fees each time they play the course. Only Green Fees will be chargeable against the prepaid amount. Trail fees, cart rentals, Guest Fees etc. will need to be settled separately with the pro shop at the time of play. Light Play Members will be debited \$27.50 for each 18 hole round played and \$18.00 for each 9 hole round played.

Residual Funds: At the end of a stay in MLGCC a Light Play Member may have a small amount of residual funds in their account. If the residual amount is insufficient to pay for a single green fee the pro shop will be authorized to zero out the prepaid account and have the Light Play Member pay the difference for a single round fee in cash. Should the Light Play Member have a residual balance of more than \$27.50 and be unable to play any more golf the pro shop will be authorized to compensate for unused funds as follows.

- Residual Balance of \$27.50 to \$54.99 = 1 complimentary green fee voucher
- Residual balance or \$55.00 or more = 2 complimentary green fee vouchers.
- NO OTHER compensation for unused prepayment amounts will be considered unless serious medical conditions are involved. If the Light Play member does not appear in person at the pro shop to close out an unused balance the amount left will be forfeited at the end of the golf season.
- If serious medical conditions arise within 90 days of the membership being initiated a refund will be calculated by the following formula; $75\% \times (550 - (\text{actual rounds played} \times 30.00)) = \text{Refund Amount}$. Applicants for refunds will make application to and receive approval from the Board according to the same requirements as those established for A and B membership refunds.

Topping Up: A Light Play Member who is approaching a \$0 balance in the prepaid account may "top up" their account with a payment in increments of \$55 plus applicable taxes.
