A Certified Audubon International Cooperative Sanctuary

Maple Leaf is proud to be a supporter of this great program which encourages protection of our wildlife heritage through environmentally responsible management of our facilities and course maintenance activities.

Completely Renovated

In 2018, the course got a complete make-over. The bunker sand was replaced with “manufactured sand”. The fairways were sprigged with “Celebration Bermudagrass”, and the greens were sprigged with Tifeagle grass - used by most high-end private courses in Florida. The course is a treat to play.

Don't let that “par 62” fool you; this course is quite challenging. There is plenty of water and the bunkers are well placed to guard the greens and to demand accurate shots.

Each hole has a distinguishing characteristic that makes it “memorable”. We know you will enjoy playing Maple Leaf. So - -
