

**COMMUNITY COMMUNICATIONS AND TECHNOLOGY COMMITTEE
MANDATES 2023– 2024**

Purpose: The Community Communications and Technology Committee is mandated to provide leadership in improving Maple Leaf community use and understanding of changing technology. Anticipated outcome includes improved information sharing and communications within Maple Leaf as well as increased satisfaction of residents as they adopt new technology.

Activities & Objectives:

The committee shall:

- Continuously work to obtain an understanding of the Maple Leaf resident communication and technology needs
- Identify opportunities where technology can improve resident's retirement experience
- Provide leadership to residents, ML clubs and groups in the facilitation of learning events on new technology
- Provide technological solutions that will improve the resident and park experience
- Avoid adoption of technology for technology's sake – always improve – never complicate
